- C
- C++
- go
- HTML
- CSS

TOOLS

- Visual Studio Code
- Neovim
- Postman
- Github
- Vercel

EDUCATION

VIVEKANAND PUBLIC SCHOOL

SECONDARY HIGH 2020-2022

KCC INSTITUTE OF TECHNOLOGY AND MANAGEMENT

BTECH CSE AI/ML 2023-2027

Internship

Heimatverse, Full Stack Web Dev Intern 2024, September 18 - 2024, December 2024

- Worked on a CRM.
- Technologies being utilized => Docker, NextJS, Prisma, PostgreSQL, NodeJS
- Working on another CRM (Purely following design wireframes and coding the designs to life)
- Working with whatsapp integration, and adding notification support to the Customer relations part of the first CRM
- Landing Pages

ALMMO STUDIO PVT LTD

2024, January 1 - Currently

- Working on a inhouse project
- Landing Pages
- Exploring Best Practices with NextJs, and Complicated Backends, and Trackers
- Doing RnD for Optimizing already existing solutions.

PROJECTS

Kaizen notes (September-October 2024)

- A notes App with auth made from scratch and OTP validation and notes appearing through google drives api right on our website.
- Frontend repo - <https://github.com/kaizentechcult/kaizenNotes>
- Backend repo - <https://github.com/kaizentechcult/notesBackend>
- Deployed Link - <https://kaizen-notes.vercel.app/>

CareerRoadPe (June 2024)

- A Career Counselling website made on ReactJS using gemini API for AI-chatbot
- Made during the hackathon BUILDWITHDELHI with my teammates
- Repo - <https://github.com/kaizentechcult/CareerRoadpe>
- Deployed Link - <https://career-roadpe.vercel.app/fields>

Portfolio (September 2024)

- My portfolio made on nextjs, and used spline3d for 3d fun stuff, this was more of a creative endeavor not a professional portfolio
- link : <https://www.krishkh.xyz>

About Me

- Very high proficiency with English and Hindi.
- Lead of a community with over 700+ members (KAIZEN TECHNICAL COMMUNITY)
- Typing speed of 140+ wpm.
- Community driven, always ready to give back to the community for all they have done for me.
- Extremely interested in making Low level development stuff, currently exploring C++ and SDL2, and data structures with C, because implementing from scratch is just so fun. also IOT, well i love everything about tech.

OS Linux(Ubuntu and Fedora) and Windows

Organized

- Organized an ideathon in my college called THINKTANK IDEATHON details about it in the below post.
- <https://www.linkedin.com/feed/update/urn:li:activity:7258033357895139328>

Participations and Certifications

- Participation in 4 hackathons
- Volunteered in 2 hackathons, CODEHUNT, HACKARCODE
- Certifications
 - Postman API Fundamentals Student Expert
 - AI Text Summarizer App Completion Certificate
